Your Partner for High-Quality Glass Packaging

International specialist in glass packaging

The Gerresheimer Group is a leading supplier of primary packaging and packaging systems made from glass. The Group's strategic focus is on the forward-looking glass packaging segments of pharmaceuticals, cosmetics and miniatures for food and beverages.

Specialist for miniature glass

In the beverage and food market Gerresheimer concentrates on the future-oriented miniature-glass segment. Creative special packaging based on container glass covers the complete spectrum in all shapes and colours.

 - Beverages
 - Foods

Variety through shapes and colours

Glass containers of A1 quality through to mass market articles – an unlimited choice of shapes in clear, coloured and opal glass – Gerresheimer can custom-design any bottle, jar or flacon in close cooperation with the customer to create a unique appearance. Business partners who do not wish to incur costs for a new development can choose from a large selection of standard designs. Through individual finishing and a wide variety of closures, the original standard shape receives a unique brand image.

Individual finishing

The finishing gives every glass packaging its unmistakable aura. Gerresheimer offers

- ceramic and organic silk screen printing in any version and free of heavy metals
- spray painting in myriad colours
- acid etching including acid strip etching
- sand blasting, and many other services
