Your Worldwide Partner for Pharmaceutical Packaging

The Gerresheimer Group is one of the leading pharmaceutical and cosmetic international suppliers of high-quality packaging and system-based approaches for both glass and plastic. In the European and American markets we have an outstanding position in pharmaceutical packaging made of tubular and moulded glass. In both production and development, Gerresheimer is recognised as a competent and innovative packaging partner for the pharmaceutical industry.

Focus on Quality and Safety

We work with state-of-the-art technologies and in accordance with the highest regulation of quality and product safety. Our production operations use highly developed monitoring and clean-room systems which exploit the advantages of innovative robot technology in all processes right through to the outer delivery packaging. Our plants are certified in accordance with DIN EN ISO 9001-2000 and oriented towards the GMP standards. Our products meet European, US and Japanese specifications.

Comprehensive Project Service

As a customer you would like professional system solutions precisely tailored to your requirements, with timely comprehensive service from your first enquiry. Our project executives work consistently towards your objectives in all phases – from development and agreement of your tailor-made packaging through logistics and marketing. Whenever and wherever you require our assistance, we are there with comprehensive expertise in pharmaceutical glassware, highly-qualified advice and professional marketing service.
