NOTES TO THE FINANCIAL STATEMENTS (HGB)

of Gerresheimer AG for the Financial Year December 1, 2012 to November 30, 2013

PRELIMINARY NOTE

Gerresheimer AG is a large corporation under Section 267 (3) in conjunction with 264 d HGB.

Gerresheimer AG shares are traded with stock symbol GXI and ISIN DE000A0LD6E6. Gerresheimer shares have been included in the MDAX index since the end of December 2008.

There is a profit and loss transfer agreement between Gerresheimer AG and Gerresheimer Holdings GmbH. Under this agreement, Gerresheimer Holdings GmbH is required to transfer all profits to Gerresheimer AG. In return, Gerresheimer AG must absorb any net loss.

Applying Section 315 (3) HGB read in conjunction with Section 298 (3) HGB, the Management Report of Gerresheimer AG for financial year 2013 has been combined with the Management Report of the Gerresheimer Group.

CLASSIFICATION PRINCIPLES

The classification of items in the balance sheet and the income statement is in accordance with Section 266 and 275 (2) HGB. For the sake of clarity, certain items are combined in the balance sheet and the income statement. These items are disclosed separately under the relevant headings in the Notes. The income statement has been prepared using the nature of expense method.

ACCOUNTING POLICIES

The annual financial statements of Gerresheimer AG are prepared in accordance with the provisions of the German Commercial Code (HGB) and the German Stock Corporation Act (Aktiengesetz/AktG).

Valuation principles for individual items:

ASSETS

Intangible assets are carried at purchase cost less amortization. Industrial property rights and similar rights acquired for valuable consideration are amortized over three to five years unless a different useful life applies by contractual agreement. Internally generated intangible assets are not recognized.

Property, plant and equipment is carried at purchase cost less depreciation. Property, plant and equipment is depreciated on a straight-line basis over an estimated useful life of three to thirteen years. Assets with a purchase cost between EUR 150 and EUR 1,000 are grouped on an annual basis and depreciated collectively over five years. Assets with a purchase cost of up to EUR 150 are recognized immediately as expense.

Financial assets are carried at purchase cost. If their attributable value is lower as of the balance sheet date, an impairment loss is recognized.

Receivables and other assets are carried at nominal value. Foreign currency receivables with a maturity of less than one year are translated at the spot rates on the balance sheet date.

Cash and cash equivalents are carried at nominal value.

Prepaid expenses are recognized, in accordance with the option under Section 250 (3) HGB, for accrued discounts on borrowing-related liabilities.

EQUITY AND LIABILITIES

Equity items are carried at nominal value.

Provisions are recognized at the settlement amount as dictated by prudent business judgment. Future price and cost increases are taken into account where there are sufficient objective indications that they are likely to occur. Provisions for liabilities falling due after more than one year are discounted at the maturity-matched average market interest rate of the last seven financial years as published by Deutsche Bundesbank.

The provision for phantom stocks is recognized at the intrinsic value of the phantom stocks and is accumulated over the period from the grant date to the earliest exercise date.

Liabilities are recognized at the settlement amount.

Deferred taxes are provided for on temporary differences between the amounts recognized for assets, liabilities, prepaid expenses and deferred income in the HGB balance sheet and their tax bases. Gerresheimer AG also provides for the deferred taxes of other companies in its tax group and for partnerships in Germany in which it holds an equity interest. Deferred taxes are provided for on the basis of the combined income tax rate of currently 29% for the tax group of which Gerresheimer AG is the parent. The combined income tax rate comprises corporate income tax (15%), trade tax (13.1%) and the solidarity surcharge (5.5%). In the case of partnerships, however, deferred taxes on temporary differences are provided for using a combined income tax rate comprising solely corporate income tax and the solidarity surcharge; this is currently 15.83%. Deferred tax assets and liabilities are presented on a net basis. Any net overall tax liability is recognized in the balance sheet as a deferred tax liability.

INDEPENDENT AUDITORS’ REPORT

We have audited the annual financial statements – comprising the balance sheet, the income statement and the notes to the financial statements – together with the bookkeeping system, and the management report combined with the group management report of Gerresheimer AG, Düsseldorf/Germany, for the business year from 1 December 2012 to 30 November 2013. The maintenance of the books and records and the preparation of the annual financial statements and combined management report in accordance with German commercial law are the responsibility of the Company’s Board of Directors. Our responsibility is to express an opinion on the annual financial statements, together with the bookkeeping system, and on the management report based on our audit.

We conducted our audit of the annual financial statements in accordance with § 317 HGB (“German Commercial Code”) and German generally accepted standards for the audit of financial statements promulgated by the Institut der Wirtschaftsprüfer. Those standards require that we plan and perform the audit such that misstatements materially affecting the presentation of the net assets, financial position and results of operations in the annual financial statements in accordance with German principles of proper accounting and in the management report are detected with reasonable assurance. Knowledge of the business activities and the economic and legal environment of the Company and expectations as to possible misstatements are taken into account in the determination of audit procedures. The effectiveness of the accounting-related internal control system and the evidence supporting the disclosures in the books and records, the annual financial statements and the management report are examined primarily on a test basis within the framework of the audit. The audit includes assessing the accounting principles used and significant estimates made by the Board of Directors, as well as evaluating the overall presentation of the annual financial statements and management report. We believe that our audit provides a reasonable basis for our opinion.
