# Gerresheimer Plastic Packaging in India

Triveni now also produces for ophthalmic applications

Gerresheimer Plastic Packaging specializes in the widely varied spectrum of pharmaceutical plastic packaging for solid, liquid and ophthalmic applications. Triveni, our leading company and brand in India, so far focuses on containers for solid dosage, but now extends its product range to ophthalmic applications. We offer innovative high-quality eye dropper bottles, initially starting with the sizes 5 and 10 ml. Triveni uses state-of-the-art technology and applies the most rigorous quality and hygiene standards. The entire manufacturing process is certified in accordance with ISO standards.

## DROPPER BOTTLE SYSTEM A FOR OPHTHALMIC APPLICATIONS

- Bottles available in LDPE and HDPE
- Initial bottle sizes produced in India: 5 and 10 ml
- Other sizes and designs available within the Gerresheimer Group
- One neck fitting various droppers and caps (CR, TE)
- Same diameter and neck size for various volumes
- Ready for irradiation and EtO sterilization
- Clean room manufactured
- High quality products with low cost in use
- Modularity leading to less stock
- Simple supply chain

## ADVANTAGES

- One supplier & one responsibility
- Can be delivered as post-sterilization-process, ready to use articles
- No set up costs for changing to new size
- Packaging more stable on production line and high control of the process within the tolerances
- No big warehouse for packaging materials needed
- Shorter delivery time and lower damage risk

## BENEFITS

- No extra cleaning or other process needed before production
- Same line and equipment can be applied
- Easier handling on filling line
- Lower costs due to the reduced filling time and no stop-overs
- Working capital gain
- Products delivered on time
