New eco-friendly cooling system in Gerresheimer Zaragoza!

Düsseldorf, May 14, 2021. In 2020 Gx Zaragoza initiated a replacement for the old cooling-system for molds and machines. Aligned with our sustainability goals, the focus was not just any kind of replacement but a change in the concept, evolving towards a system that reduces the impact on the environment. Due to the new cooling system we can reduce water consumption by 20% in 2021 already.
